

"Here in Washington State, we have had the ability to vote by mail for many years, and I'm making sure my vote counts by sending in my ballot early. Like many union members, I recognize the importance of this year's election. If anti-union, anti-worker politicians are able to take over the reins of power in Congress or our state capitols, the gains that we have fought so hard for over the years may be lost. There's a lot of noise and disinformation swirling around this election season, but you can make the right decision when you vote by keeping one fact in mind:

This November, your job is on the ballot. Vote for it!"
